

II REGIONAL SUMMIT OF METHANE

LATIN AMERICA AND THE CARIBBEAN

Agenda Day 1 - July 23rd, Lima - Peru

Time	Activity
07:30 - 08:30	Registration and welcome
08:30 - 09:10	Opening remarks
09:10 - 09:50	High-level dialogue on methane mitigation in Latin America Insights from the Ministers of Energy of Colombia, Peru, and Mexico on advancing methane emissions mitigation in the energy sector and delivering on national climate commitments.
09:50 - 10:30	Methane mitigation outlook from the energy sector in Peru Analysis of the country's current situation in the O&G sector and the mitigation perspective expected for the next five years, in order to meet its climate commitments.
10:30 - 11:00	Coffee Break
11:00 - 11:20	From the G20 to COP 30 Vision of the COP30 Presidency on methane emission abatement and the energy sector.
11:20 - 11:40	Global Methane Tracker 2024 / 2025 Overview of methane emissions and the main findings of the Global Methane Tracker 2024 and 2025 for the global and regional context.
11:40 - 12:30	Progress of the OEMLAC Presentation of the Observatory's progress since the first Summit: Publications made and progress of Low Emission Natural Gas (GNBE) certification.
12:30 - 14:00	Lunch
14:00 - 15:30	Methane Regulation: Institutional challenges and regional experiences Regulatory challenges for methane emission reduction and current experiences in developing regulatory frameworks.
15:30 - 16:10	Climate transparency and the private sector: from reporting to impact Progress and challenges in climate transparency from the private sector, in compliance with international standards of reporting and monitoring, as well as the articulation with the government sector for the reporting, control and surveillance of their emissions and their incorporation into national GHG inventories.
16:10 - 16:30	Coffee break
16:30 - 17:30	Corporate commitments to reduce methane emissions Initiatives and commitments of energy, oil and gas companies to reduce methane emissions, highlighting success stories and opportunities for public-private collaboration in Latin America and the Caribbean and progress in complying with requirements established by markets or governments at the international level in terms of methane emission reduction.
CLOSING DAY 1	

Place: Sheraton Lima Historic Center / Address: Paseo de la República 170, Lima, Perú, 15001

II REGIONAL SUMMIT OF METHANE

LATIN AMERICA AND THE CARIBBEAN

Agenda Day 2 - July 24th, Lima - Peru

Time	Activity
07:30 - 08:30	Registration and welcome
08:30 - 09:30	Mobilizing resources for methane abatement Strategies used by the corporate sector to finance the implementation of its methane mitigation plans and the projection for the medium term (2025 – 2030).
09:30 - 10:30	Advancing the energy transition with biomethane General outlook, opportunities, challenges and success stories associated with the production and use of biomethane as an alternative for the decarbonization of the energy sector.
10:30 - 11:00	Coffee Break
11:00 - 12:30	Innovation and technology for methane management in LAC Latest technological advances available in the market for the monitoring and geolocation of super-emitting events, leak detection and repair, emission measurement, capture and energy use. In addition to the challenges in terms of access to and transfer of technologies in the region.
Official closing of the 2nd Methane Summit to the public	
14:00 - 18:00	REGIONAL ROUNDTABLE TO MOVE FROM METHANE COMMITION TO ACTION International Energy Agency (IEA) - Community of Practice on Methane (COEMLAC)

Place: Sheraton Lima Historic Center / **Address:** Paseo de la República 170, Lima, Perú, 15001
